ICE FISHING SAFETY RULES

Here are a few general guidelines for use by winter recreation enthusiasts to lessen their chances for an icy dip or worse. It's impossible to judge the strength of ice by its appearance, thickness, daily temperature, or snow cover alone. Ice strength is actually dependent on all four factors, plus water depth under the ice, the size of the water and water chemistry, currents, and distribution of the load on the ice.

- Wait to walk out on the ice until there are at least 4 inches of clear, solid ice. Thinner ice will support one person, but since ice thickness can vary considerably, especially at the beginning and end of the season, 4 inches will provide a margin of safety. Some factors that can change ice thickness include flocks of waterfowl and schools of fish. By congregating in a small area, fish can cause warmer water from the bottom towards the surface, weakening or in some cases opening large holes in the ice.
- Go out with a buddy and keep a good distance apart as you walk out. If one of you goes in the other can call for help (everyone carries cellular phone these days). The companion can also attempt a rescue if one of you are carrying rope or other survival gear.
- Wear a life jacket. Life vests or float coats provide excellent flotation and protection from hypothermia (loss of body temperature). Never wear a life jacket if you are traveling in an enclosed vehicle, however. It could hamper escape in case of a breakthrough.
- Carry a pair of homemade ice picks or even a pair of screwdrivers tied together with a few yards of strong cord that can be used to pull yourself up and onto the ice if you do fall in. Be sure they have wooden handles so if you drop them in the struggle to get out of the water, they won't go straight to the bottom!
- Check at the access if there are signs that indicate an aeration system is in operation on the lake. Aerators keep areas of water open to provide oxygen for fish. The ice can be weakened many yards beyond where the ice is actually open.
- Above all, avoid alcoholic beverages. Beer and booze increases your chances for hypothermia and increases the likelihood that you'll make a stupid mistake that will cost you or a companion their life.

Having taken all of these precautions, you're now going to try your luck at fishing. Walking out on the ice, you hear a crack and break through. Suddenly you find yourself immersed up to your neck in water so cold it takes your breath away. If you think that's no big deal, try holding your hands in a bucket of ice water for more than a couple of minutes. If you can do it without extreme pain, you are tougher than the average person.

Try not to panic. Of course that's easier said than done, but if you decide on a plan before you actually fall in, survival chances are greatly improved.

# LAND & LAKES COMMITTEE

**Minutes -Land & Lakes Committee**  
January 4, 2017

**Call To Order:** The meeting was called to order at 6:32 p.m by Steve Harenberg in the absence of Board Liaison John Hecker. Committee Members present were Collin Cochran, Glen DeLorme, and Glenda Carlson. Also absent were Committee Members Deb McBeath and Robert Wilder.

**Recognized Visitors:** None

**Questions or Comments from the December 21, 2016 Board Meeting –**  
Steve Harenberg reported on the proposed new construction on Lot 158 where the homeowner has informed the Board and Committee of his intent to allow access to the RTA for the needed ravine repairs in this area prior to his home being built. This would reduce the overall costs to the Association for the repair of this ravine as the current check dams has filled in. The Board is moving forward in this ravine to obtain costs.

Glenda reported the Annual Dam Inspection Report was received and copies are available to all members upon request at the office.

### Old Business:

- Ravine #1 Work to begin again in the spring.  
Ravine #5 Work Continues.  
Shoreline Stabilization Guidelines – On Board Agenda at January meeting for Approval  
2017 Review of Sediment Reduction Study-Continues  
New Member Recruitment- Continues

**New Business:**

- Steve Harenberg discussed the need for a Committee Chairman. No current member present at the meeting expressed the ability to chair the committee for 2017 and future requests will be made both in-house and within the membership. It is important to allow your board liaison serve in the capacity of which he is appointed and to have a Chairman to work within the Committee. Steve asked the members present to help recruit a member for the Chair and members to the Committee.

**Adjournment:** Meeting adjourned at 7:20 p.m. Next Meeting will be held on Wednesday, February 1, 2017.

Infrastructure/Long-Range Planning Committee (ILRPC) February 2017 Newsletter Article

Tuesday, January 10, 2017

**Call to Order** - The meeting was called to order at 5:00 PM. Committee members in attendance were Jim Sinclair, Suzanne Wheeler, Jeff Lox, Roger Markle, and Don Keith. Glenda Carlson was a guest. Committee member absent – Kevin Arduini.

**Report on the December 2016 RTA Meetings** – Jim reported on a preliminary pool complex needs list. The Board asked us to continue our research. The fundraising committee would be willing to raise funds for any appropriate projects.

**General Discussion** – The February meeting has been moved up to Tuesday, February 7<sup>th</sup> at 5 PM at the club house.

**Swimming Pool Complex** – Jim presented a Swimming Pool Complex Analysis matrix listing components of each section of the pool complex. We had great discussions about each item with Glenda filling in a lot of history and small aspects of pool needs already planned to occur in 2017. This included an itemized Pool Repair/Supply Report with dates, supplier, and what was done. The 2017 items planned to be done include 1) installing the new diving board (already paid for); 2) replacing the two small pool gates; 3) replace the pump room door; 4) purchase and install the automatic chlorine feeder and an automatic acid cleaner feeder in the pump room; and 5) paint the fence. Projects that need additional research and we hope to get done include 1) pool deck concrete leveling/replacement and 2) repair/replace lifeguard chairs. Other areas of emphasis in 2017 will be a thorough analysis of the pool building roof, electrical wiring, and pool complex piping.

This matrix will be added and updated as additional information is determined to the Camelot Roundtable Association website’s Pages and Links page to keep the membership informed of our progress.

**Committee Projects** – No Project Request Forms were presented by the community this month.

**Other possible item for 2017 consideration** – Parking lots, tennis courts surface, club house deck sealing, digital signage at entrances.

**Items not discussed** – None

**Potential Projects in Next 5 – 10 Years:**

THE PRESIDENTS’ CORNER

Here we are at the beginning of 2017 and I hope everyone had great holidays. I know that there has been family loss and personal challenges, please know you have the heartfelt sympathy of this community. The new board is anticipating a great start to 2017 with plenty of activities in the making. We have a lot of construction activities planned on mainly ravine repairs with the Land & Lakes Committee. We have a very diverse board with a wide variety of expertise which we believe will help us make the best decisions for our community.

I wanted to let the community know about the continued commitment from Land & Lakes to move forward with the ravine repairs as we heard loud and clear from the membership at the annual meeting that they would like to see this addressed first before any dredging would be performed. The board is still committed to stopping the silt entering the lakes and eventually dredging once the ravines are repaired. The Board has instructed the committee and our administration to move forward on now contacting construction companies to escalate the gathering of total bid costs on all ravines repairs. Folks, we have great challenges facing us but we have a plan and we are moving forward to accomplish these goals. John Hecker, board liaison to the Land & Lakes, is very committed to this committee and would be happy to help you get acquainted with the goals they will be working to accomplish in 2017.

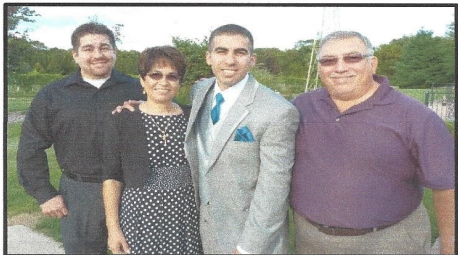

We have other challenges facing our Land & Lakes committee in that this committee is in need of more volunteers. We currently have some dedicated individuals but we are also in search of members looking for a way to get involved with Land and Lakes so they too have a voice in the community- 1) of the costs being attributed to the ravine repairs, 2) of how the repairs will be made, 3) of when they will be recommended to be made, 4) thoughts of how funds will be obtained to make the repairs and 5) to serve on the committee giving the board the recommendations on how to move forward.

We have a huge need for volunteers in all the committees in this community and would ask that you look hard and see if this is something you could help with and to try and get actively involved. The best way I know to find out what is going on in the community is to attend a committee meeting or the monthly board meeting. We have a very devoted board, office staff and many volunteers that give up valuable personal time to this community, committees, and clubs. If you have any interest in getting involved, I urge you to talk to a board member, a board liaison, a committee chairman or the administrative office. All of these people have tremendous knowledge of the activities and work going on in this community.

Please be aware you will see plenty of activity from the board and Land & Lakes committee this year. We will be walking, looking around and working in the ravines behind your homes. If you have any question on the activity behind your home please contact the management office, to inquire within.

I appreciate your consideration and look forward to working with many more volunteers to help us with all of our future endeavors. WE appreciate your participation!

Sincerely,  
  
Steve Harenberg

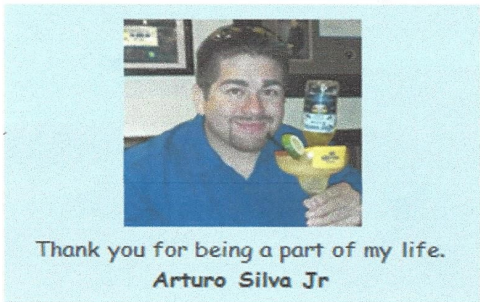

With all our heart, our family thanks you for the beautiful tribute for **Arturo Silva Jr.**

It demonstrates to us the impact one life can make in this world. There no words to express our gratitude for the outpouring of love, prayers, and support we received from our family, including our Ameren family, friends and the community.

Our prayer is that you realize how precious a life is and that you realize your life does make a difference.

God bless you all and protect you.

The SILVA Family,  
Arturo, Maria & Danny

LAKE CAMELOT BASEBALL REGISTRATION

Registration for the Lake Camelot summer baseball program will be held **March 1-15, 2017**. Registration forms are available at the Lake Camelot Clubhouse and on our website at [www.camelotrta.org](http://www.camelotrta.org). Registration fee is \$40 per child. Forms should be completed and returned, along with fee, to the Lake Camelot office or to Leah Allison by Wednesday, March 15, 2017.

Lake Camelot fields teams for T-Ball and Instructional/Coach Pitch.

T-Ball (4, 5, & 6 year olds)

- Boys and girls should be four years of age prior to May 1 to play T-Ball. Parents need to determine readiness of players who are four.
- Games have traditionally been played on Wednesday evenings and Saturday mornings beginning early June thru early July.
- League games may be played against Lake Camelot, Hanna City and Hollis Park.

Instructional/Coach Pitch (7 & 8 year olds)

- Boys and girls should be seven years of age prior to May 1 to play Instructional League. Players who turn nine years of age prior to May 1 are too old to play.
- Games have traditionally been played on Tuesday and Friday evenings beginning late May thru mid July.
- League games are played with the Kickapoo Valley League (Hollis Park, Hanna City, Princeville, Brimfield, Elmwood, Farmington, and Kickapoo).

Questions? Call, text or email Leah Allison at 608-444-7014 or [camelotbaseball@gmail.com](mailto:camelotbaseball@gmail.com).
