General Manager's Report by Daryl Johnson

We are hoping to hold the 36th Annual Ice Fishing Tournament on February 8th, if weather provides enough ice. Right now, we have approx. two inches of ice, so be careful if you plan to venture out ice fishing. Note: 4" of ice is recommended to be safe.

I want to thank those that participated in the recent Blood Drive. Next blood drive is scheduled for July 29th. It won't be long till spring, and we are already getting things ready for this year's pool season. Besides pizza, hotdogs, nachos, and ice cream, are there any items you'd like to see on the snack bar menu? I look forward to hearing from you!

## **SECURITY CORNER**

**Courtesy Reminder:** 

November 1st thru March 1st—Trailers, boats, and recreational vehicles must be removed from the front of any lot. They can be parked in the side or rear yard behind the home's front building line. If you are not yet in compliance, please take care of the issue before warning letters and fines are imposed.

If you plan to venture out onto the ice this winter, rule of thumb for safety is to have at least 4" of ice. Always remember to carry with you a rescue rope in case of an emergency. Stay Safe!

a. Harkers Corner Silt Dam Update

Guest speaker Michael Bryant of Farnsworth Engineering to give presentation and answer questions on proposal to engage Farnsworth as Project Engineer for Harker's Corner Silt Dam Project.

Mike Bryant's credentials: licensed professional and structural engineer in the state of IL and some other states and has been inspecting dams for over 30 years. Mike will be training Brandon Larson to take his over his responsibilities within the next few years.

Purpose of silt pond dam is to trap and keep sediments out of the main lake, and easier to dig out material in the pond. We can replace same configuration without a need for a new permit or license. We can remove the concrete and replace it and will last for decades. After plans approved, bidding, contractor awarded, construction oversite, inspection and contractor payment.

Mike's recommendation is we get this project done this year. There are large holes in the concrete, voids where soil has been lost to depths of a foot, and is a safety hazard. Construction plans issues, rebid and award the project by end of April so the contractor can schedule work by summer or early fall Aug-Sept to minimize risk of overflow of water that would damage the construction process.

For the lower lake spillway bridge Mike recommends we ask Peoria county engineer if the county would help finance.
